

IN THE SPECIFICATION

Please amend the specification as follows:

Page 1

Replace the paragraph commencing at line numbered 18 with the following:

---

The present applicant has proposed a constant velocity universal joint and an assembling method thereof in U.S. Patent Application Serial Nos. 09/456,488 and 09/984,898, now U. S. Patent Nos. 6,454,655 and 6,497,621, respectively. According to the constant velocity universal joint, induced thrust performance and durability are improved by reducing slide resistance generated when one transmission shaft is tilted and a trunnion is displaced along a guide track. The present invention has been made in relation to this proposal.
